

Things You Might Not Know About Daylilies (Hemerocallis)

You can extend the bloom season for hemerocallis enjoyment by planting plants together of differing bloom time.

Early Bloomers begin blooming in June.

Mid-season for daylilies is July -- around the 10th is peak in this area.

Late season bloomers begin when the rest of the blooms are tapering off

-- say end of July to August.

EARLY BLOOMERS

Always Afternoon
Baby Moon Café
Blackthorne
Bright Sunset
Custard Candy
Daring Deception
Diva's Choice
Early Snow
